>PublicCoordinate

Engagement that exceeds expectations

PublicCoordinate is a community engagement platform that allows you and your clients to communicate and visualize project information through interactive maps, collect valuable stakeholder input, and make data-informed decisions. The solution offers highly customizable and user-friendly mapping, project web pages, and integrated survey capabilities to inform stakeholders and gather deeper insights to streamline project decision-making.

ENHANCE PUBLIC ENGAGEMENT:
Promote stakeholder feedback by streamlining the engagement process to give the public a voice in project decisions.

### CUSTOMIZABLE AND USER FRIENDLY:
Build and display highly customized and interactive maps that are tailored to meet unique project needs.
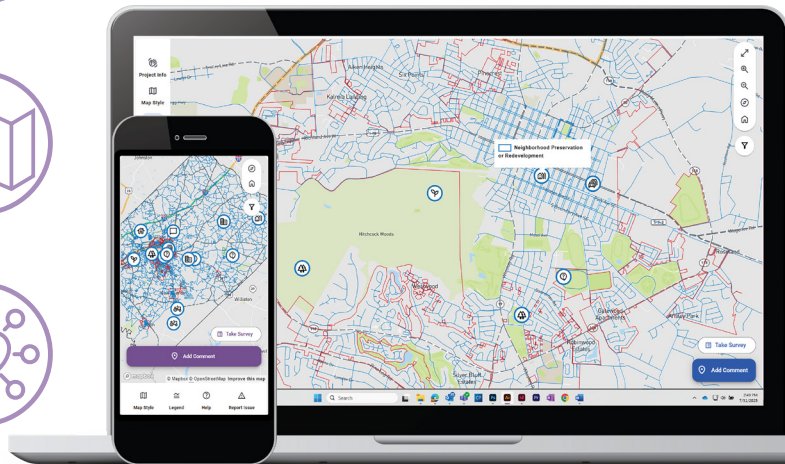

INCREASE TRANSPARENCY:
Share interactive project information with the public that helps build rapport and trust.

ACCESSIBILITY FOR ALL:
Increase community involvement with a platform designed with ADA web accessibility at top-of-mind.

Suitable for all public engagement needs, from simple community outreach and feedback to complex multi-phase projects
